April 20, 1999

Dear FDA Commissioner Jane Henney:

Our family has just become aware of a peice of legislation which demands action immediately to assure the safety of the meats we eat.

We urge action on the petition of the \*HFA" to eliminate the feeding of dead animals to living farm animals. Scientific sources indicate this is what brought mad cow desease to the British. It only takes one carcass to infect and start the same horrible process in America.

Cows' are not meat eaters and they should not be forced to eat dead animals.

Sincerely

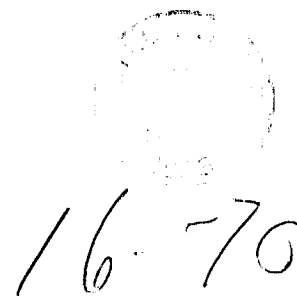

*Rosita A. Smith*

\* P.S. The Docket # is 99P-0033/CP1

99P-0033

c.278
